

Customized solutions for cell cultures.

Xell AG announces successful ISO 9001 certification

XELL IS DELIVERING QUALITY, NOW CERTIFIED!

We have always delivered quality products and services, but this recently became approved by DQS GmbH (Germany). Thanks to a great team effort!

Together with starting up our brand-new second production facility within the first quarter of 2020 this step introduces a new chapter in Xell's business capabilities. Committed to defined quality, equipped to provide leading products and services, tailored to meet timelines and reach milestones, enabled to serve unique scientific support, dedicated to outmatch customer expectation Xell can be your driving-force for any project from transient to stable, from protein to virus production, from R&D scale to GMP manufacturing.

You are invited to join Xell's success story now and to learn about new benchmarks in the cell culture industry. Let's immediately turn your unmatched expectations into real products and services – [click here](#).
