

xcell

Optimized virus production **HEK ViP media family**

- For transfection and production of proteins and viral vectors (e.g. AAV and lentivirus) in HEK and other human cell lines
- Comprehensive solution:** thawing, expanding, transfecting and producing can all be performed in the same medium, regardless of the scale
- HEK ViP NB** and **HEK ViP NX:**
basic and high nutrient levels to fit each specific application and cell line
- Chemically defined, protein-free, AOF, w/o growth factor
